- 2.1.2 It is the State's intention to obtain goods and services, as specified in this RFP, from a Contract between the selected Offeror and the State.
- 2.1.3 The Department intends to make a single award as a result of this RFP. See RFP **Section 4.9 Award Basis** for more Contract award information.

2.2 Background and Purpose

The Office of Preparedness and Response (OP&R) of the Maryland Department of Health (MDH) is the lead for Maryland's Public Health and Medical planning and response. As the lead, MDH duties include, but are not limited to, coordinating and integrating emergency preparedness planning and response operations to a wide variety of natural and or manufactured public health threats.

In response to the 2014 Ebola epidemic, the U.S. Department of Health and Human Services (HHS) Assistant Secretary for Preparedness and Response (ASPR) awarded supplemental funding to Maryland and other states to enhance Ebola preparedness and response activities to ensure the nation's health care system is adequately prepared to respond and maintain operational capabilities to support Ebola Virus Disease (EVD) patients. Funding provided through the supplemental funding supported the development of the HHS Region III Ebola and Other Special Pathogens Treatment Center (RESPTC) and Regional Ebola and Other Special Pathogens concept of operations (CONOPS) which has also informed other planning processes such as the repatriation and infectious prevention plan.

HHS Region III partners include Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, and West Virginia. In collaboration with HHS Region III partners, a regional EVD Tabletop Exercise was conducted in April 2016 to exercise and address topics on multi-agency coordination, transportation protocols, planning, and communications. As part of an ongoing enterprise, Johns Hopkins Hospital is well positioned to accept, transfer, and provide care of patients with or suspected highly infectious diseases throughout the region.

To evaluate HHS Region III partners' readiness and response capabilities for an EVD or emerging/reemerging infectious disease (EID) outbreak, MDH OP&R is in search of a Contractor to develop and facilitate one (1) multi-jurisdiction Full-Scale Exercise to demonstrates the region's ability to move patients across jurisdictions to RESPTC at the Johns Hopkins Hospital (JHH) in Baltimore, Maryland. In addition, the exercise should evaluate, review, and measure the region's readiness and response capability before and during an outbreak of EVD and/or another EID. The exercise goals are to:

- Demonstrate proficiency and identify gaps specified in emergency preparedness and response capabilities;

- Test notification, communication, and coordination efforts with the healthcare sector, Emergency Medical Service (EMS) providers, emergency management, and public health;
- Develop improvement items to enhance response to public health emergencies.

The exercise must be designed, conducted, and evaluated in accordance with the Homeland Security Exercise and Evaluation Program (HSEEP) guidelines, the National Incident Management System, and the National Response Framework.

2.2.1 Project Goals

The purpose of this project is to evaluate HHS Region III partners' readiness and response capabilities as the result of an EVD or EID outbreak that triggers the HHS Region III Ebola Virus Disease Regional Network Coordination and Response Plan.

- H. Confirm the Regional Ebola and Other Special Pathogen Treatment Center's Biocontainment Unit (BCU) team readiness to care for patients (both an adult and pediatric patient) with Ebola or EID upon notification from the sending state.
- I. Identify gaps in preparedness planning and response capacities and capabilities.

- 4.12.5 Failure to acknowledge receipt of an addendum does not relieve the Offeror from complying with the terms, additions, deletions, or corrections set forth in the addendum, and may cause the Proposal to be deemed not reasonably susceptible of being selected for award.

4.13 Cancellations

- 4.13.1 The State reserves the right to cancel this RFP, accept or reject any and all Proposals, in whole or in part, received in response to this RFP, waive or permit the cure of minor irregularities, and conduct discussions with all qualified or potentially qualified Offerors in any manner necessary to serve the best interests of the State.

If applicable, the Offeror's Proposal shall contain an explicit statement, signed by an authorized representative of the parent organization, stating that the parent organization will guarantee the performance of the subsidiary.
- 4.16.4 A parental guarantee of the performance of the Offeror under this Section will not automatically result in crediting the Offeror with the experience or qualifications of the parent under any evaluation criteria pertaining to the actual Offeror's experience and qualifications. Instead, the Offeror will be evaluated on the extent to which the State determines that the experience and qualifications of the parent are applicable to and shared with the Offeror, any stated intent by the parent to be directly involved in the performance of the Contract, and the value of the parent's participation as determined by the State.

The economic benefit offered should be consistent with the Offeror's Total Proposal Price from **Attachment B**, the Financial Proposal Form. See COMAR 21.05.03.03A (3).
- 2) Proposals that identify specific benefits as being contractually enforceable commitments will be rated more favorably than Proposals that do not identify specific benefits as contractual commitments, all other factors being equal.
- 3) Offerors shall identify any performance guarantees that will be enforceable by the State if the full level of promised benefit is not achieved during the Contract term.
- 4) As applicable, for the full duration of the Contract, including any renewal period, or until the commitment is satisfied, the Contractor shall provide to the Procurement Officer or other designated agency personnel reports of the actual attainment of each benefit listed in response to this section. These benefit attainment reports shall be provided quarterly, unless elsewhere in these specifications a different reporting frequency is stated.

- a) generic statements that the State will benefit from the Offeror's superior performance under the Contract;
 - b) descriptions of the number of Offeror employees located in Maryland other than those that will be performing work under the Contract; or
 - c) tax revenues from Maryland-based employees or locations, other than those that will be performing, or used to perform, work under the Contract.
- 6) Discussion of Maryland-based employees or locations may be appropriate if the Offeror makes some projection or guarantee of increased or retained presence based upon being awarded the Contract.
- 7) Examples of economic benefits to be derived from a contract may include any of the following. For each factor identified below, identify the specific benefit and contractual commitments and provide a breakdown of expenditures in that category:
- a) The Contract dollars to be recycled into Maryland's economy in support of the Contract, through the use of Maryland subcontractors, suppliers and joint venture partners. **Do not include actual fees or rates paid to subcontractors or information from your Financial Proposal;**
 - b) The number and types of jobs for Maryland residents resulting from the Contract. Indicate job classifications, number of employees in each classification and the aggregate payroll to which the Offeror has committed, including contractual commitments at both prime and, if applicable, subcontract levels; and whether Maryland employees working at least 30 hours per week and are employed at least 120 days during a 12-month period will receive paid leave. If no new positions or subcontracts are anticipated as a result of the Contract, so state explicitly;
 - c) Tax revenues to be generated for Maryland and its political subdivisions as a result of the Contract. Indicate tax category (sales taxes, payroll taxes, inventory taxes and estimated personal income taxes for new employees). Provide a forecast of the total tax revenues resulting from the Contract;
 - d) Subcontract dollars committed to Maryland small businesses and MBEs; and
 - e) Other benefits to the Maryland economy which the Offeror promises will result from awarding the Contract to the Offeror, including contractual commitments. Describe the benefit, its value to the Maryland economy, and how it will result from, or because of the Contract award. Offerors may commit to benefits that are not directly attributable to the Contract, but for which the Contract award may serve as a catalyst or impetus.

P. Technical Proposal - Required Forms and Certifications (Submit under TAB O)

- 1) All forms required for the Technical Proposal are identified in Table 1 of **Section 7** – RFP Attachments and Appendices. Unless directed otherwise by instructions within an individual form, complete, sign, and include all required forms in the Technical Proposal, under TAB O.
- 2) Offerors shall furnish any and all agreements and terms and conditions the Offeror expects the State to sign or to be subject to in connection with or in order to use the Offeror's services under this Contract. This includes physical copies of all agreements referenced and incorporated in primary documents, including but not limited to any software licensing agreement for any software proposed to be licensed to the State under

this Contract (e.g., EULA, Enterprise License Agreements, Professional Service agreement, Master Agreement) and any AUP. The State does not agree to terms and conditions not provided in an Offeror's Technical Proposal and no action of the State, including but not limited to the use of any such software, shall be deemed to constitute acceptance of any such terms and conditions. Failure to comply with this section renders any such agreement unenforceable against the State.

- 3) For each service, hardware or software proposed as furnished by a third-party entity, Offeror must identify the third-party provider and provide a letter of authorization or such other documentation demonstrating the authorization for such services. In the case of an open source license, authorization for the open source shall demonstrate compliance with the open source license.
- 4) A Letter of Authorization shall be on letterhead or through the provider's e-mail. Further, each Letter of Authorization shall be less than twelve (12) months old and must provide the following information:
 - i) Third-party POC name and alternate for verification
 - ii) Third-party POC mailing address
 - iii) Third-party POC telephone number
 - iv) Third-party POC email address
 - v) If available, a Re-Seller Identifier

5.4 Volume II – Financial Proposal

The Financial Proposal shall contain all price information in the format specified in **Attachment B**. The Offeror shall complete the Financial Proposal Form only as provided in the Financial Proposal Instructions and the Financial Proposal Form itself. Do not amend, alter, or leave blank any items on the Financial Proposal Form or include additional clarifying or contingent language on or attached to the Financial Proposal Form. Failure to adhere to any of these instructions may result in the Proposal being determined to be not reasonably susceptible of being selected for award and rejected by the Department.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.

6 Evaluation and Selection Process

6.1 Evaluation Committee

Evaluation of Proposals will be performed in accordance with COMAR 21.05.03 by a committee established for that purpose and based on the evaluation criteria set forth below. The Evaluation Committee will review Proposals, participate in Offeror oral presentations and discussions, and provide input to the Procurement Officer. The Department reserves the right to utilize the services of individuals outside of the established Evaluation Committee for advice and assistance, as deemed appropriate.

During the evaluation process, the Procurement Officer may determine at any time that a particular Offeror is not susceptible for award.

6.2 Technical Proposal Evaluation Criteria

The criteria to be used to evaluate each Technical Proposal are listed below in descending order of importance. Unless stated otherwise, any sub-criteria within each criterion have equal weight.

6.2.1 Offeror's Technical Response to Requirements and Work Plan (See RFP § 5.3.2.F)

The State prefers the Offeror's Technical Proposal to illustrate a comprehensive understanding of work requirements and mastery of the subject matter, including an explanation of how the work will be performed. Proposals which include limited responses to work requirements such as "concur" or "will comply" will receive a lower ranking than those Proposals that demonstrate an understanding of the work requirements and include plans to meet or exceed them.

6.2.2 Experience and Qualifications of Proposed Staff (See RFP § 5.3.2.G)

6.2.3 Offeror Qualifications and Capabilities, including proposed subcontractors (See RFP § 5.3.2.H)

6.2.4 Economic Benefit to State of Maryland (See RFP § 5.3.2.O)

6.3 Financial Proposal Evaluation Criteria

All Qualified Offerors (see **Section 6.5.2.D**) will be ranked from the lowest (most advantageous) to the highest (least advantageous) price based on the Total Proposal Price within the stated guidelines set forth in this RFP and as submitted on **Attachment B** - Financial Proposal Form.

6.4 Reciprocal Preference

6.4.1 Although Maryland law does not authorize procuring agencies to favor resident Offerors in awarding procurement contracts, many other states do grant their resident businesses preferences over Maryland Contractors. COMAR 21.05.01.04 permits procuring agencies to apply a reciprocal preference under the following conditions:

- A. The Maryland resident business is a responsible Offeror;
- B. The most advantageous Proposal is from a responsible Offeror whose principal office, or principal base of operations is in another state;
- C. The other state gives a preference to its resident businesses through law, policy, or practice; and
- D. The preference does not conflict with a federal law or grant affecting the procurement Contract.

6.4.2 The preference given shall be identical to the preference that the other state, through law, policy, or practice gives to its resident businesses.

6.5 Selection Procedures

6.5.1 General

- A. The Contract will be awarded in accordance with the Competitive Sealed Proposals (CSP) method found at COMAR 21.05.03. The CSP method allows for the conducting of discussions and the revision of Proposals during these discussions. Therefore, the State may conduct discussions with all Offerors that have submitted Proposals that are determined to be reasonably susceptible of being selected for contract award or potentially so. However, the State reserves the right to make an award without holding discussions.
- B. With or without discussions, the State may determine the Offeror to be not responsible or the Offeror's Proposal to be not reasonably susceptible of being selected for award at any time after the initial closing date for receipt of Proposals and prior to Contract award.

6.5.2 Selection Process Sequence

- A. A determination is made that the MDOT Certified MBE Utilization and Fair Solicitation Affidavit (**Attachment D-1A**) is included and is properly completed, if there is a MBE goal. In addition, a determination is made that the VSBE Utilization Affidavit and subcontractor Participation Schedule (**Attachment E-1**) is included and is properly completed, if there is a VSBE goal.
- B. Technical Proposals are evaluated for technical merit and ranked. During this review, oral presentations and discussions may be held. The purpose of such discussions will be to assure a full understanding of the State's requirements and the Offeror's ability to perform the services, as well as to facilitate arrival at a Contract that is most advantageous to the State. Offerors will be contacted by the State as soon as any discussions are scheduled.
- C. Offerors must confirm in writing any substantive oral clarifications of, or changes in, their Technical Proposals made in the course of discussions. Any such written clarifications or changes then become part of the Offeror's Technical Proposal. Technical Proposals are given a final review and ranked.
- D. The Financial Proposal of each Qualified Offeror (a responsible Offeror determined to have submitted an acceptable Proposal) will be evaluated and ranked separately from the Technical evaluation. After a review of the Financial Proposals of Qualified Offerors, the Evaluation Committee or Procurement Officer may again conduct discussions to further evaluate the Offeror's entire Proposal.
- E. When in the best interest of the State, the Procurement Officer may permit Qualified Offerors to revise their initial Proposals and submit, in writing, Best and Final Offers (BAFOs). The State may make an award without issuing a request for a BAFO. Offerors may only perform limited substitutions of proposed personnel as allowed in Section 3.11 (Substitution of Personnel).

6.5.3 Award Determination

Upon completion of the Technical Proposal and Financial Proposal evaluations and rankings, each Offeror will receive an overall ranking. The Procurement Officer will recommend award of the Contract to the responsible Offeror that submitted the Proposal determined to be the most advantageous to the State. In making this most advantageous Proposal determination, technical factors will receive equal weight as financial factors.

6.6 Documents Required upon Notice of Recommendation for Contract Award

Upon receipt of a Notification of Recommendation for Contract award, the apparent awardee shall complete and furnish the documents and attestations as directed in Table 1 of **Section 7 – RFP Attachments and Appendices**.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.

Attachment B. Financial Proposal Instructions & Form

B-1 Financial Proposal Instructions

In order to assist Offerors in the preparation of their Financial Proposal and to comply with the requirements of this solicitation, Financial Proposal Instructions and a Financial Proposal Form have been prepared. Offerors shall submit their Financial Proposal on the Financial Proposal Form in accordance with the instructions on the Financial Proposal Form and as specified herein. Do not alter the Financial Proposal Form or the Proposal may be determined to be not reasonably susceptible of being selected for award. The Financial Proposal Form is to be signed and dated, where requested, by an individual who is authorized to bind the Offeror to the prices entered on the Financial Proposal Form.

The Financial Proposal Form is used to calculate the Offeror's TOTAL Proposal PRICE. Follow these instructions carefully when completing your Financial Proposal Form:

- A) All Unit and Extended Prices must be clearly entered in dollars and cents, e.g., \$24.15. Make your decimal points clear and distinct.
- B) All Unit Prices must be the actual price per unit the State will pay for the specific item or service identified in this RFP and may not be contingent on any other factor or condition in any manner.
- C) All calculations shall be rounded to the nearest cent, e.g., .344 shall be .34 and .345 shall be .35.
- D) Any goods or services required through this RFP and proposed by the vendor at **No Cost to the State** must be clearly entered in the Unit Price, if appropriate, and Extended Price with **\$0.00**.
- E) Every blank in every Financial Proposal Form shall be filled in. Any changes or corrections made to the Financial Proposal Form by the Offeror prior to submission shall be initialed and dated.
- F) Except as instructed on the Financial Proposal Form, nothing shall be entered on or attached to the Financial Proposal Form that alters or proposes conditions or contingencies on the prices. Alterations and/or conditions may render the Proposal not reasonably susceptible of being selected for award.
- G) It is imperative that the prices included on the Financial Proposal Form have been entered correctly and calculated accurately by the Offeror and that the respective total prices agree with the entries on the Financial Proposal Form. Any incorrect entries or inaccurate calculations by the Offeror will be treated as provided in COMAR 21.05.03.03.F and may cause the Proposal to be rejected.
- H) If option years are included, Offerors must submit pricing for each option year. Any option to renew will be exercised at the sole discretion of the State and comply with all terms and conditions in force at the time the option is exercised. If exercised, the option period shall be for a period identified in the RFP at the prices entered in the Financial Proposal Form.
- I) All Financial Proposal prices entered below are to be fully loaded prices that include all costs/expenses associated with the provision of services as required by the RFP. The Financial Proposal price shall include, but is not limited to, all: labor, profit/overhead, general operating, administrative, and all other expenses and costs necessary to perform the work set forth in the solicitation. No other amounts will be paid to the Contractor. If labor rates are requested, those amounts shall be fully-loaded rates; no overtime amounts will be paid.
- J) Unless indicated elsewhere in the RFP, sample amounts used for calculations on the Financial Proposal Form are typically estimates for evaluation purposes only. Unless stated otherwise in the RFP, the Department does not guarantee a minimum or maximum number of units or usage in the performance of the Contract.
- K) Failure to adhere to any of these instructions may result in the Proposal being determined not reasonably susceptible of being selected for award.

B-1 Financial Proposal Form

The Financial Proposal Form shall contain all price information in the format specified on these pages. Complete the Financial Proposal Form only as provided in the Financial Proposal Instructions. Do not amend, alter or leave blank any items on the Financial Proposal Form. If option years are included, Offerors must submit pricing for each option year. Failure to adhere to any of these instructions may result in the Proposal being determined not reasonably susceptible of being selected for award.

The effect of termination of the Contract hereunder will be to discharge both the Contractor and the State from future performance of the Contract, but not from their rights and obligations existing at the time of termination. The Contractor shall be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the Contract. However, the Contractor shall not be reimbursed for any anticipatory profits that have not been earned up to the date of termination. - 25.2 Upon three (3) Business Days' notice, the State shall be provided reasonable access to Contractor's records to perform any such audits. The Department may conduct these audits with any or all of its own internal resources or by securing the services of a third-party accounting or audit firm, solely at the Department's election. The Department may copy any record related to the services performed pursuant to the Contract. The Contractor agrees to fully cooperate and assist in any audit conducted by or on behalf of the State, including, by way of example only, making records and employees available as, where, and to the extent requested by the State and by assisting the auditors in reconciling any audit variances.
